

Caleb Churata

Mechatronics Engineering Student · Robotics Student Fellow

Lima, Peru — currently Zürich, Switzerland · caleb@leggedrobotics.com · github.com/angor-root

EDUCATION

UTEC — Universidad de Ingeniería y Tecnología Mechatronics Engineering, Bachelor's — Lima, Peru	2022-08 — Present
ETH Zürich — Robotics Student Fellowship Program (RobotX) Robotics — Zürich, Switzerland	2026-07 — 2026-08

EXPERIENCE

Robotics Student Fellow — Robotic Systems Lab, ETH Zürich Zürich, Switzerland Robotics Student Fellow in the ETH Robotics Student Fellowship (RSF) program — legged robotics research with the RSL team.	2026-07 — Present
Director de Proyecto — IEEE Robotics & Automation Society UTEC Lima, Peru Leading the LÁK Biped project, a bipedal robot inspired by Disney's BDx robot.	2026-02 — Present
Presidente — IEEE Robotics & Automation Society UTEC Barranco, Peru	2025-01 — 2026-02
ETH Robotics Summer School 2026 — Participant Geneva, Switzerland One of 50 students worldwide invited to the ETH Robotics Summer School 2026 — an intensive week combining robotics theory with hands-on programming of autonomous, all-terrain quadruped robots, culminating in a search-and-rescue competition.	2026-07

AWARDS

2nd Place, IROS 2025 (Volting Cup) Awarded for the FreeWheels project — an intuitive-control wheelchair for athletes — presented at Volting Cup 2025 in China.	2025-10
Smart City Challenge — Winning Team Awarded by Darat Latam / UTEC Ventures, recognizing the project with the greatest potential impact on smart urban environments.	2025-04

PROJECTS

Obedience — Bipedal Robot Autonomous bipedal robot with capture-point walking control, built on ROS 2, MuJoCo, and Pinocchio.

FreeWheels

Intuitive-control wheelchair for athletes. 2nd place, IROS 2025 China; winner, Smart City Challenge.

LÁK Biped

Bipedal robot inspired by Disney's BDx robot, IEEE RAS UTEC.

SKILLS

Robotics & Controls

ROS 2, MuJoCo, Pinocchio, legged locomotion, capture-point control, sim-to-real reinforcement learning

Programming

Python, C++

Embedded & Hardware

PCB design (KiCad), ESP32, micro-ROS, Arduino

Languages

Spanish (native), English (professional working proficiency)
